## Altex Company Profile

Established in 1980, San Antonio based Altex Electronics has grown to become a widely respected name in the computer and networking industry. Altex has worked extensively over the past two decades to establish strong relationships and historical ties to our customers. As a family-owned business, Altex extends a family feeling to each customer in Texas, across the country, and around the world.

Our goal is complete customer satisfaction by providing superior expertise and top-quality workmanship.

## Computer Service & Upgrades

**Carry-In Technical Service & Support**

The Altex in-store service department repairs all brands of servers, desktop PCs, and notebooks. With Altex's 25+ years in the business and local service departments at all locations, we are ready to serve you. When you choose the carry-in technical service at Altex, you get top quality technicians at competitive rates.

## On-Site Service

Computer Repair/Upgrade, Network Design, Troubleshooting and Service Contracts

For maximum convenience, we will send a fast, efficient technician to your site to repair any make or model computer. Or we will upgrade your older technology with our high quality computer parts and peripherals to keep you up to date and more productive.

When your network is not meeting your expectations due to slow response or unavailable network applications, turn to us to find the problem and correct it fast. We understand that all networks are essential tools; from the local area networks to the wide area network model (spread across several cities, states or countries); all data and applications need to be available when requested.

## Security & Surveillance

The Altex Security Surveillance professionals specialize in the design, installation, consultation, and integration of security surveillance systems.
